**About Silk River** <http://www.silkriver.co.uk/>

Silk River is an ambitious project which explores the unique relationship between London and Kolkata through artistic exchange between communities along the Thames Estuary and India's Hooghly River. Kinetika's Artistic Director Ali Pretty, with associate Artistic Director Ruchira Das (Think Arts, India) and an international team of artists, writers and photographers, will capture and interpret the experience of journeying along these two mighty rivers. Working in 20 locations from Murshidabad to Batanagar (Hooghly) and Royal Botanic Gardens Kew to Southend (Thames) to reinterpret a shared heritage, Kinetika's Silk River will raise cultural awareness of the Indo-British relationship through engaging diaspora communities who live alongside both rivers.

Silk River UK took place along the Thames between 15-24 Sept and will culminate in West Bengal along the Hooghly 7-17 Dec 2017 with two river walks where the stories of the 20 locations will be revealed to local, national and international audiences through the showing of 20 giant hand-painted Bengali silk scrolls and accompanying performances.
